WELCOME TO THE BEND URBAN TRAILS SYSTEM!

The Bend Urban Trails System, developed and managed jointly by the Bend Park & Recreation District and the City of Bend, connects our community and encourages recreation and non-motorized transportation.

Trails in the system traverse many different landscapes, including established parks, natural forested areas, and urban areas both sparsely and densely developed. The Urban Trails System currently includes approximately 61 developed miles, with more trails under development each year. The Bend Park & Recreation District is committed to increasing and improving the primary and connector trail routes as rights-of-way and funding opportunities become available.

BEND URBAN TRAIL OPPORTUNITIES

LARKSPUR TRAIL

The Larkspur Trail extends between Pilot Butte State Park and Larkspur Park, passing through Pinewood Natural Area. Both Pilot Butte and Larkspur parks

have ample parking and restroom facilities; Larkspur Park is also the site of the Bend Senior Center and the Rotary Centennial All Children's Playground. Walkers can add an additional mile by climbing the trail to the summit of Pilot Butte or can proceed north from the park on dirt pathways to Neff Road.

CASCADE HIGHLANDS TRAIL

Good for mountain bikers and walkers alike, this trail begins at Overturf Park on 17th Street and travels west up and over Overturf Butte through the Skyliner Summit neighborhood to the roundabout at Mt. Washington Drive. It then continues west through Cascade Highlands, before connecting to the Forest Service Phil's Trail system. The trail provides a mix of paved and unpaved surfaces.

CENTRAL OREGON CANAL TRAIL

From Blakely Park, the trail follows along the west side of Brookwood Blvd. and then heads southwest through Central Oregon Irrigation District (COID) property to an intersection with the Deschutes River Trail. At this point trail users can go either up or down stream along the river. Or, from Blakely Park, trail users can cross to the east side of Brookwood Blvd. and head south to the Central Oregon Canal and take the ditch-road east along the canal to American

Lane where the COID trail currently ends. From here a short journey east along sidewalks on Reed Market Road leads to the southern end of the Larkspur Trail at Larkspur Park.

TRAIL ACCESSIBILITY

It is the goal of Bend Park & Recreation District to provide trail access for all. However, not all existing trail segments have been evaluated nor are all trails intended to be fully accessible routes. The trails on this map may present obstacles, running slopes, cross slopes, narrow tread widths, and unstable surfaces, making them inaccessible for some users. Trails at Farewell Bend, Riverbend and Pine Nursery parks offer the best access for visitors with mobility aids. Updated information about the condition and accessibility of trails is available by calling 541-389-7275. Ultimately, it is the trail user's responsibility to determine if trail difficulty is appropriate for his/her skill level.

OFF-LEASH DOG PARKS

Bend has seven areas for people to recreate with their dogs off-leash. Unless otherwise indicated, dogs must be leashed on trails and in parks.

SHEVLIN PARK TRAILS

Shevlin Park is Bend's largest park encompassing 644 acres in a natural setting. The park offers many different types of trails and provides for a variety of recreational experiences. Tumalo Creek flows through the middle of the park.

Shevlin Park is home to the most diverse old growth forest at this elevation in the region and an abundance of animal life. This includes migratory birds, deer, elk, bear and the occasional cougar.

Parking is available at the park entrance on Shevlin Park Road and picnic sites are dispersed throughout the park. Restrooms are located at the entrance and at the south end.

Dogs must be on-leash on all Shevlin Park trails.

Loop Trail: This 6-mile trail follows the rim of the canyon, runs through old growth ponderosa pine, includes a few short, steep hills, and crosses Tumalo Creek twice.

Tumalo Creek Trail: This 2.5-mile trail follows the creek upstream from the park entrance to the southern end of the park, where it joins the Deschutes National Forest trail system.

Mt. Bike Trail: This is a preferred route for mountain bikes, but is open to walkers as well. The trail follows along the canyon on the west side of the park, and links with the Forest Service Mrzek Trail. Riders may also take the east road out to the Forest Service trail system.

Accessibility: The road running through the middle of Shevlin Park is paved and can accommodate most ability levels. The trail system covers a variety of unimproved surfaces. The Shevlin Commons parking lot provides access to a 0.3-mile asphalt path that allows those with physical challenges to view the park and the Cascade mountain range from the east rim of Tumalo Creek canyon.
